AI & Security Architect | Enterprise AI Governance + Threat Intelligence Architecture

AI Security Architect with 10+ years' experience in business solving complex issues via balancing innovation data-driven outcomes, with security governance in mind. Extensive experience managing different accounts from ecommerce platforms, fitness, health to architecting cloud, generative AI and security solutions.

Technical Expertise

AI Architecture: TemporalRAG • HopGraph • Multi-Agent Systems • Knowledge Graphs • Explainable AI • Model Provenance • ISO 42001 • EU AI Act • NIST AI RMF
Security Architecture: Zero-Trust • MITRE ATT&CK • Threat Modeling (STRIDE, DREAD, MAESTRO, PASTA) • SIEM/SOAR • Network Segmentation • Defence-in-depth
Compliance: ISO 27001 Lead Auditor • ISO 42001 • GDPR • NIST CSF • SOC 2 • OWASP Top 10 [LLM & API]
Cloud: AWS, Azure, GCP • Hybrid/Multi-Cloud Security • IaC Security • 99.99% HA
Development: Python (FastAPI) • TypeScript • Microservices Security • API Security • Kafka/Flink

Key Projects

JanuSec: AI Security Triage Platform | CyberStash | 2025

Architected intelligent triage layer reducing SOC alert noise 60-90% while maintaining 100% threat detection through 30-stage progressive AI filtering with full compliance integration.

Impact: 2-5x analyst capacity, <15 min MTTD (73% reduction), 7.3x ROI

Tech: FastAPI, Neo4j, Isolation Forest, HopGraph, Compliance Frameworks, PostgreSQL, Kubernetes, SOAR Integration

Rubicon Manufacturing Intelligence | Go Cloud Architects | 2025

Architected dual-framework solution: YOLOv8 CV (85% defect detection, \$500K savings) + GraphRAG predictive maintenance (95% prevention) with secure edge IoT integration.

Tech: YOLOv8, GraphRAG (Neo4j), CrewAI, Edge IoT, FastAPI

Professional Experience

AI & Security DevSecOps | Cyberstash

September 2025 – Present

SultryAI - Threat Intelligence Architecture: Architected multi-tier threat hunting framework with TemporalRAG + HopGraph correlation engine, automated MITRE ATT&CK mapping, and adaptive IsolationForest anomaly detection. Designed AI governance framework aligned with ISO 42001, NIST AI RMF, and EU AI Act with full decision provenance and audit trails.

JanuSec – AI-powered Triage XDR Platform: Designed 30-stage progressive enhancement pipeline with automated threat modeling across MITRE ATT&CK, STRIDE, DREAD, MAESTRO, and PASTA frameworks. Architected multi-framework compliance system (ISO 42001, EU AI Act, NIST AI RMF, ISO 27001, GDPR) with zero-trust controls, tenant isolation, and privacy-by-design patterns.

Cloud Security & AI Architect | Go Cloud Architects

March 2023 – Present

Architected Fortune 500-equivalent security solutions across retail automation and automotive IoT. Designed responsible AI deployment frameworks with ethical and compliance protocols. Delivered defense-in-depth security for banking, retail, manufacturing sectors with hybrid cloud architectures achieving 99.99% uptime. Responded to RFIs (Request for Information), RFPs (Request for Proposal) and RFQs (Request for Quote) to provide cloud solutions that meet their business requirements

Lead Sports Myotherapist | Hyperwell Health & Performance & Bodyfocus Physiotherapy

December 2021 – July 2023

Managed myotherapy clients in partnership with other allied health professionals to manage clients complex musculoskeletal conditions. Develop and executed client acquisition strategies to increase sales for the clinic. Lead in-service sessions to educate other therapists about the latest research and best practices. Managed stakeholder relationships with insurance companies to ensure that clients adhere to their treatment plans.

Accounts & Project Coordinator | 1MD

2013

Lead and project managed the senior developer in partnership with Creative Director based on each account's digital vision. Managed a variety of digital marketing accounts for a variety of retail and businesses. Managing several projects iterations which included website redesigns and online e-commerce. Liaised with a variety of stakeholder relationship to ensure that projects are accomplished according to deadlines

Education & Certifications

Education: Bachelor of Engineering (Robotics and Mechatronics) | University of Western Sydney | 2010
| Bachelor of Health Science (Myotherapy) | Endeavour College | 2020 • Bachelor of Business (Marketing) | APM College & Torrens University | 2013

Training: AI Engineer Bootcamp (RAG) | Zero to Mastery • Cloud Computing WIL [Work Integrated Learning] | TAFE NSW • LangChain Academy

Certifications: Cyber Security GRC • Cyber Security Architecture Design | TAFE • Microsoft SC900 • Penetration Testing & Ethical Hacking | TAFE

Professional Endorsement

David Linthicum | Former Chief Cloud Strategy Officer, Deloitte Consulting
Industry-Leading Cloud & AI Strategist | 30+ Years Enterprise Architecture Experience

"Kevin has demonstrated deep technical and business understanding of AI deployments. His work on AI-powered security platforms showcases not only advanced technical capabilities but also the strategic thinking required for enterprise-scale implementations.

His ability to lead AI initiatives with strategic vision and bridge the gap between technology and business makes him an ideal candidate for roles in AI architecture, strategy, and development. Kevin's unique combination of security expertise and AI innovation positions him exceptionally well for organizations seeking to leverage AI for advanced threat detection and security operations."
